## ★ Adventure Dr. Jekyll 2005 Suzuki GSXR 750 TKC 80 - \$3300 (Dublin)

image 1 of 9

2005 Suzuki GSXR 750 which can either be a swift transportation on the street or a forestry exploratory vehicle.

many modifications.

+60mm cables + extended braided brake lines to allow Speigler LSL handlebar kit. MUCH more comfortable. Also have clip ons.

Currently it has TKC80 tires at both ends, but street tires are included and rear street tire is on second rim for easy swap.

Pelican Case is attached to second pillion pad. Original Pillion pad is in a good shape.

Second front fairing is included and lowers are included (some rash from previous owner).

Have shorty Akrapovic exhaust (very loud, so went back to stock).

Have a skid plate that is not installed.

Quite a few extra parts.

Fork seals and fork oil were changed/replaced in 2017. Frame sliders installed in various places to protect from any tip overs.

Bike has been on the Trans America Trail (North Carolina and TN).

I would give it a grade of "C" for rough forestry and mountain roads. It could get a "B-" if you played around with the suspension and made a couple of minor changes. Very light for an adventure bike.

I needed an adventure steed to stay with some Africa Twins on forestry roads and this was OK. Everyone had a lot of looks when it got parked.

Runs great. New O-ring chain in 2017. Tires and Adventure conversion was in 2017.

Bad: Low fuel light is not working, so pay attention to fuel level.

Fuel tank is dinged and some of the bodywork has rash.

Reason for selling is that I have other toys to drive.
